DELIVERY	Composer, Git, Jira, Linux/SSH, staging and production support, debugging, testing, campaign scheduling

PROFESSIONAL EXPERIENCE

Magento 2 Developer

Techscale | Remote / Denmark project | 2024–Present

- Develop and maintain the Julefabrikken five-store Magento platform across custom login, gifting, OTP, VIP, leader and redemption workflows.
- Implement frontend and backend changes, customer and store configuration, batch processes, CMS updates and production troubleshooting.
- Prepare technical plans and estimates, validate role-based journeys and support staged releases.

Senior Magento / Full-stack Web Developer

RLTSquare | Lahore, Pakistan | Jun 2018–Jun 2024

- Delivered Magento 2, WordPress, WooCommerce and BigCommerce solutions for international clients.
- Built custom modules, plugins, themes, checkout and catalog experiences, integrations and responsive landing pages.
- Supported performance, SEO foundations, testing, code review, technical estimates and junior developers.
- **EGO Shoes:** supported the Magento commerce operation for approximately four years, coordinating promotional campaign setup across five storefronts, including sale schedules, layout and banner changes, Amplience content updates, launch checks and urgent live-sale support before sales moved to a third-party platform.

Senior Magento 2 Developer

SELECTED PROJECTS

EGO Shoes — Multi-store Campaign Delivery	Supported sale launches across five Magento storefronts for approximately four years, managing campaign schedules, layout and banner updates, Ampliance content and launch validation.
Julefabrikken	Magento multi-store gifting platform with custom authentication, gift selection, OTP, VIP, leader and voucher workflows.
Discounted Wheel Warehouse	Hyvä migration and automotive product discovery with custom fitment, listing and Magento upgrade work.
National Museum of Qatar	60+ responsive pages converted from Figma into a Magento Hyvä theme using Tailwind and Alpine.js.
Guest Coupon Protection	Custom Magento module that prevents repeat guest coupon use through historical identity matching.
B2B Company Permissions	Role-based company contacts with storefront and API authorization.

EGO SHOES CAMPAIGN SCOPE

- Coordinated sale scheduling and go-live changes across five storefronts.
- Updated promotional layouts, homepage sections, campaign banners and supporting content.
- Worked with Ampliance-managed content as part of the promotional workflow.
- Performed pre-launch and post-launch checks and supported time-sensitive updates during live sales.
- Experience relates to the earlier Magento operation, before the sales platform transitioned to a third party.

EDUCATION

MCS | Virtual University of Pakistan | 2015–2018

AI-ASSISTED DEVELOPMENT

Practical use of ChatGPT, Claude, Cursor and Gemini for code analysis, debugging, structured prompts, test planning and documentation, with manual technical review.
