

PROFESSIONAL SUMMARY

WordPress developer with 7+ years of experience building and maintaining business, content and e-commerce websites. Strong in custom themes and plugins, WooCommerce, PSD/Figma-to-WordPress delivery, responsive frontend development, booking and payment workflows, third-party APIs, performance optimization and production support. Also brings senior Magento and broader e-commerce experience to complex integrations.

CORE EXPERTISE

WORDPRESS	Custom themes, templates, child themes, custom post types, widgets, custom plugins and WordPress coding standards
WOOCOMMERCE	Store setup, product, cart and checkout customization, payment and shipping integrations, plugin customization
FRONTEND	PHP, HTML5, CSS3, JavaScript, responsive/mobile-first development, cross-browser quality, PSD/Figma conversion
INTEGRATIONS	REST APIs, Square payments, SMS, booking systems, air-quality data, LearnDash and third-party services
DELIVERY	MySQL, performance tuning, SEO foundations, Git/GitHub, Agile delivery, code review and mentoring

PROFESSIONAL EXPERIENCE

Magento 2 Developer

2024 - Present

Techscale | Remote / Denmark project

- Develop and support a business-critical multi-store commerce platform, strengthening current full-stack and e-commerce experience.
- Translate requirements into technical plans, implement frontend and backend changes, test role-based workflows and support production delivery.

Full-stack Web Developer - WordPress Focus

Jun 2018 - Jun 2024

RLTSquare | Lahore, Pakistan

- Developed custom WordPress themes, templates and plugins for business and e-commerce websites.
- Built and customized WooCommerce stores, including product, cart and checkout experiences.
- Converted PSD designs into responsive WordPress frontends using PHP, HTML, CSS and JavaScript.
- Integrated payment gateways, shipping options, booking systems, SMS campaigns and other third-party APIs.
- Optimized database queries and page assets, reviewed code, fixed bugs and mentored junior developers.
- Also delivered store builds and customizations on BigCommerce.

Senior Web / Full-stack WordPress Developer

Dec 2016 - Jul 2018

Systons | Multan, Pakistan

- Delivered WordPress websites from wireframes and architecture through custom theme development and deployment.
- Converted PSD files into responsive themes and created custom plugins for client-specific workflows.
- Built reusable code libraries, triaged issues through GitHub and delivered mobile-first, cross-browser experiences.

SELECTED WORDPRESS & COMMERCE PROJECTS

Rosie Taxicab Custom booking-page plugin with SMS campaign functionality, air-quality integration and Square payment support.	Adam Noble PSD-to-WordPress implementation, theme and plugin customization, responsive delivery and speed optimization.
Interwood Corporate PSD-to-WordPress build with custom theme and plugin development.	HDF Pakistan Responsive WordPress build with custom plugin and theme customization.
Global Diagnosis Education LearnDash LMS plugin customization for specialized learning workflows.	BookPal BigCommerce store build and platform customization.
Refuse Fab WooCommerce product-detail page customization.	IPC Center / Vector Seek WordPress and WooCommerce theme, plugin and content-experience customization.

DEVELOPMENT APPROACH

DISCOVERY	Clarify goals, content structure, user journeys, third-party dependencies and management requirements
BUILD	Use reusable templates and components, responsive frontend patterns and server-side validation
QUALITY	Review performance, browser behavior, mobile layouts, forms, integrations and editorial usability
SUPPORT	Document changes, resolve production issues and keep features maintainable for content teams

AI-ASSISTED DEVELOPMENT

Use ChatGPT, Claude, Cursor and Gemini to speed up code analysis, troubleshooting and documentation while manually reviewing generated suggestions before implementation.

EDUCATION

MCS | Virtual University of Pakistan | 2015 - 2018
